

Automation

Sorry to bother you, but Jenkins is having a problem :-(

Instead of an expected response I received the following, which usually means an internal Jenkins error:

```
org.kohsuke.stapler.Stapler.invoke(Stapler.java:876)\r\n\tat org.kohsuke.stapler.Stapler.invoke(Stapler.java:649)\r\n\tat hudson.init.impl.InstallUncaughtExceptionHandler$1.reportException(InstallUncaughtExceptionHandler.java:27)\r\n\tat org.kohsuke.stapler.compression.CompressionFilter.reportException(CompressionFilter.java:77)\r\n\tat org.kohsuke.stapler.compression.CompressionFilter.dofilter(CompressionFilter.java:55)\r\n\tat org.eclipse.jetty.servlet.ServletHandler$CachedChain.doFilter(ServletHandler.java:1482)\r\n\tat
```

Before [reporting a bug in Jenkins](#) it's usually worth trying to troubleshoot it using the information from your [Jenkins Error Log](#).
